2025 COMMUNITY PROJECTS- NOT APPROVED

S/N	PROPOSED PROJECTS	SECTOR	NATURE OF PROJECTS	WARD	REASON FOR NON-APPROVAL
1.	Construction of Laboratory and Theatre at Arther Wina Memorial Mini Hospital	Health	New	Muoyo	Not approved due to limited funds and only prioritized projects were approved
2.	Construction of Matongo Health Post; Including Construction of piped water System, Ablution Block and Staff Houses	Health	New	Nanjucha	The project was not approved on account that there were similar applications from other communities with pressing needs
3.	Proposed Construction of 1*3 CRB, Flushable Toilets and Water Reticulation System at Lyamutinga Primary School	Education	New	Mukukutu	The CDFC could only approve one project per Ward and in this location, priority was given to Lyamutinga Clinic over the 1x3 CRB
4.	Construction of 1*3 CRB at Ng'eleta Primary School	Education	New	Kataba	Not approved due to highly competing needs and limited funds. Only water project was approved at this site. Project to be prioritized next year (2026)

5.	Construction of a Water Reticulation System and Flushable Toilets at Litoya Primary School	Water and Sanitation	New	Lubosi	Project not approved because DMMU was installing water at the same school at the time of appraisal
6.	Construction of a Clinic, Staff House, Flushable Toilets and Water Reticulation System in Lubosi Zone	Health	Completion	Lubosi	Project not approved because the community lies within 6km of access to two health facilities namely Nanjucha and Litoya compared to other needy communities
7.	Proposed Construction of Flushable Toilets and Upgrading the Water Reticulation System at Mwandu Primary School	Water and Sanitation	New	Kambai	Not approved due to limited funds against competing needs
8.	Construction of Flushable Toilets and Upgrading of Water Reticulation System at Nasilimwe Primary School	Water and Sanitation	New	Kambai	Not approved due to limited funds against competing needs
9.	Proposed Construction of a 1x3 CRB and water	Education	New	Lyamakumba	The construction of a clinic in this location was prioritized as such the

	Reticulation System at Nambwae Secondary School				proposed project for 1x3 was deferred to the following year
10.	Construction of a Maternity Annex, Solar Power and Flushable Toilets at Sinungu Health Center	Health	New	Lyamakumba	The Committee deferred the project to the following year on account of limited funds and competing
11.	Proposed Construction of a Clinic, Flushable Toilets, Staff House, Water Reticulation System and Installation of Solar Powered electricity in Likulwe	Health	New	Likulwe	The Community in Likulwe recently benefitted from a 1x3 CRB, Water reticulation system and ablution block under the 2024 fiscal year as such the proposed clinic project was deferred
12.	Proposed Construction of a 1x3 CRB, Upgrading of water Reticulation System and Flushable Toilets at Muu Primary School	Education	New	Likulwe	Not approved due to limited available funds, in the context of competing priorities from schools with higher enrolment levels, which were considered
